

ACCELERATED
CARE SOLUTIONS

NEW COMMUNITY LAUNCH

We help senior communities do more with less so you can get back to doing what you love!

WHAT IS NEW COMMUNITY LAUNCH?

We work with your organization to take on strategic clinical and administrative tasks, freeing your team's time to launch a new community, mentor and oversee staff, and provide the best possible care for your residents and their families.

OUR VALUE DRIVERS

RETENTION

Free your nurses to focus on what is most important while retaining their work-life balance.

EXPERIENCE

Enhance resident experience by utilizing consistent processes with an unbiased third-party.

REVENUE

Expedite revenue by utilizing dedicated clinical and administrative resources for more efficient move-ins, retention of staff, and resident experiences.

NEW COMMUNITY LAUNCH IN ACTION

Our innovative services combine to provide the specific support and resources your community needs.

CULTIVATE RELATIONSHIPS WITH HIGH-TOUCH REFERRAL SOURCES

We build on relationships with your referral sources by developing confidence in consistent focused processes, easing the workload for both discharge and move-in teams.

RESIDENT MOVE-IN COORDINATION

We simplify the move-in process and prepare care coordination for new residents. Allow us to take on the administrative burden of the end-to-end move-in assessment and care coordination process. From record release to accurate medication preparation, we have it covered so your team can focus on the new resident's experience.

NURSE TRIAGE

Provide your nurses with much-needed work-life balance. Our 24/7 nurse triage line provides access to clinical resources and after-hours, weekend, and holiday support for your nursing team with highly-trained, experienced, and local RNs.
